

SRIKRISHNA

MERN Stack Developer

+91 72003 74802 srik27600@gmail.com www.linkedin.com/in/sri-krishna-web-developer Coimbatore - 641104

SUMMARY

Self-taught Full Stack Developer passionate about building **dynamic, responsive user interfaces** and **scalable applications**. Proficient in **HTML, CSS, JavaScript, and React**, with expertise in the **MERN stack (MongoDB, Express, React, Node.js)**. Skilled in **API development, authentication (Auth0), and real-time data handling**, with a strong focus on **performance, usability, and innovation**.

PROJECTS

WEB DEVELOPMENT

TECHWAGON

Date period

- Developing Techwagon, an e-commerce website for heavy-duty machinery and spare parts using WordPress and WooCommerce. Using the Flatsome theme and UX Builder for a modern, responsive, and user-friendly design.
- Integrating WooCommerce to manage product listings and categories
- Focused on performance optimization, SEO, and mobile responsiveness for better user experience.

MERN STACK

ONESTOPDEV

12/2024 - Present

- Built a **comprehensive web development platform** with **50+ tools**, including **code generators, format converters, debugging utilities, and AI-powered resources** for developers.
- Developed using the **MERN stack (MongoDB, Express.js, React, Node.js)** with **Auth0 authentication** for secure access.
- Implemented **real-time data handling** and improved **responsiveness**, enhancing developer efficiency and usability.

INTERNSHIPS

Web Developer

03/2024 Location

CodSoft: Innovative Web Solutions Firm

- Completed the **CodSoft** internship, developing a responsive landing page for a juice company, a calculator, and a **CRUD**-supported **to-do** app using HTML, CSS, and JavaScript. Gained expertise in responsive design, **Git**, testing, and **debugging**.

Web Developer

05/2024 Location

Prodigy Infotech: Web development and integration.

- Completed the **Prodigy Infotech** internship, where I developed a fully responsive landing page, a weather application fetching real-time data from the **OpenWeather** API with 100% accuracy, and a personal portfolio featuring 5+ projects. This experience strengthened my **front-end** skills, **API integration** expertise, and ability to build user-friendly web applications.
